

Process Research and Development Services

WuXi AppTec's process research and development team, consisting of more than 160 process chemists, helps customers manufacture their drug candidates more efficiently. Our cGMP-quality kilo lab and pilot plant can assist in the development of processes for manufacturing drugs in increasing quantities — from lab to pilot plant to commercial quantities that meet the needs of clinical trials and commercialization.

WuXi AppTec is a global leader in providing discovery, testing and manufacturing services for the pharmaceutical, biotechnology and medical device industries. Research-driven and customer-focused, with operations in China and the U.S., WuXi AppTec offers a broad and integrated portfolio of services designed to assist our customers with cost-effective and efficient outsourcing solutions.
